"Don't Throw Away Stocks," Says William Rockefeller.

William Rockefeller said to-day that he could not account for the disastrous break in the stock market.

"The decline in the values of securities is as much of a mystery to me as it can be to any one else," said Mr. Rockefeller. "Every one knows that public confidence has been much disturbed, but I do not think it should have gone to the extreme of causing such a heavy

"With genuine prosperity throughout the country there certainly seems no adequate reason for it. As for myself and my associates, our faith in the future of the country has not been shaken at all, and we have been buyers and not sellers throughout the past ten days. Phroughout these troubles we have done and are doing all we can to restore and maintain public confidence. It is very clear to me that the people who are throwing away their securities at panic prices will sorely regret it within the next six months."

She Answers Just Two Questions and Is Excused, and Her Place Is Taken on the Witness Stand by the Convicted Lawyer.

EXPERT SWEARS THERE IS NOT ANY BRAIN STORM.

Dr. William Hirsch Assails the Evidence of Dr. Evans-Great Array of Alienists Put Through the Legal Mill for the Prosecution To-Day.

As a result of the sensational testimony which Abe Hummel, the disbarred lawyer, gave upon the stand this afternoon as a witness for the State in the murder trial of Harry Thaw, the defense will on Monday morning go to the almost unprecedented length of forcing the head and ront of the prosecution to testify in their behalf.

After Attorney Delmas had fought for nearly an hour to prevent Abe Hummel from giving his version of the statement which Evelyn Nesbit made to him when she came with Sanford White to the office in 1903, Justice Fitzgerald ruled that the evidence was admissible, thereby dealing Harry Thaw's cause the hardest blow it has yet sustained.

For Hummel eagerly proceeded to narrate to the jury the series of damaging admissions which struck directly at the very trath of Evelyan Nesbit Thaw's sworn statement. Moreover, the trend-of Planmers totimony tended to place Harry Thaw's conduct in a bad light at the very period of his life when, according to his lawyers, he was paying thomas

To meet this emergency the lawyers for the defense at once decided upon a desperate expedient.

WILL PUT JEROME ON STAND.

To an Evening World reporter one of them said: "We expect to put Mr. Jerome on the stand Monday morning. We expect to compel him to produce the record of the trial of Abe Hummel, by which it was be shown that Mr. Jerome convicted Abe Hummel of almost identical the same trick which we contend Abe Hummel practised upon-Buelin Nesbit in 1903 by putting into her mouth utterances which she had never made, and that by cajolery and device he and Stanford White and Stanford White's emissaries induced her to affix her signature to a bognet affidavit, the contents of which she had no knowledge of.

"By this means we will give the jury an opportunity to weigh Hummel's evidence against Abe Hummel's record and to let them decide for themselves whether they will believe Evelyn Nesbit Thaw, who be fighting for her husband's life, or Abe Hummel, who is hoping by what he has done to-day to save himself from the penitentiary sentence that

Evelyn Thaw was on the stand for a few minutes. , She was not allowed to assail the story told by Hummel.

Then Jerome called Hummel, and he was permitted to tell all about the alleged affidavit that Evelyn Thaw made to him.

Mrs. Thaw looked just as she did when last she had been there-

NERVOUS AS SHE TOOK THE STAND.

She was breathing hard with nervousness as she climbed to the chair and faced the rows of eager faces in front of her. Her customary pallor, if anything, seemed slightly increased. Except for a pair of gray MAYOR AND COUNCIL. kid gloves instead of the tan ones she wore a fortnight aga, there was absolutely no change in her garb.

She smiled a wistful little smile in the direction of her husband as

she sank back into her seat. There was a furrow in her broad forehead and the nervous dilation of her nostrils made her nose seem pinched. The cords the her neck stood out visibly and plainly, for Harry Thaw's wife has lost so much flesh from her slight frame since this trial began that she has about her

the look of a sick person.
